

A. Duie Pyle Named Top Northeast LTL Carrier in 2016 Logistics Management Quest for Quality Awards

LTL Carrier earns top ranking nationally in expedited carrier rankings based on reader votes

WEST CHESTER, Pa. – August 10, 2016 – [A. Duie Pyle](#) (Pyle), the premier provider of asset and non-asset based transportation and supply chain solutions in the Northeast, has been recognized as the leading Northeast/Mid-Atlantic regional LTL carrier in Logistics Management Magazine’s 2016 Quest for Quality Awards. The prestigious industry award measures customer satisfaction and performance excellence, based on survey results from the magazine’s readers.

In addition to earning top honors in the regional Less-Than-Truckload (LTL) category for the 28th consecutive year, Pyle was also a winner in the Expedited Motor Carrier category for its guaranteed expedited solution, Pyle Priority Service.

“It is an honor to be recognized by the shipping community as the top LTL carrier in the Northeast. We are also pleased to be named one of the top Expedited carriers in the country for our guaranteed service for time sensitive shipments, Pyle Priority Service,” said Randy Swart, COO at A. Duie Pyle. “Continuing to place importance on quality, performance, customer service and value has given our customers the reliable service they need.”

Pyle was recognized alongside their long-time partners Dayton Freight Lines and Southeastern Freight Lines, who each earned top rankings in the Midwest/North Central Regional LTL and South/South Central Regional LTL categories, respectively. “The fact that our partners are also award-winning service providers speaks to the quality we expect from ourselves and those we partner with. We’re grateful to work with these outstanding organizations to meet and exceed our customers’ expectations,” added Swart.

The Logistics Management Quest for Quality survey, which is viewed as one of the most extensive industry surveys, is sent to the publication’s readers who review carriers, third-party logistics (3PLs) and service providers on key service indicators such as on-time performance, value, information technology, customer service and equipment and operations. For more than three decades, Logistics Management’s Quest for Quality Survey has been regarded as the most important measure of customer satisfaction and performance excellence in the transportation and logistics industry.
