A. Duie Pyle Receives Package Carrier Safety Award for The Dow Chemical Company

WEST CHESTER, PA, Aug 23, 2011 – A. Duie Pyle, a leading Northeast transportation and logistics provider, received the “2010 Menlo Worldwide Logistics Package Carrier Safety Award” for excellence in the safe transport of products for The Dow Chemical Company. The award recognizes A. Duie Pyle, among eligible carriers in Dow’s North American Road Package sector, for performing at the highest levels of service performance and safety compliance.

“A. Duie Pyle is within the core group of carriers who transport 80% of Dow’s freight nationally, which is a distinction,” said Tom Walker, A. Duie Pyle’s director of chemical markets and compliance. “As the only Northeast Regional LTL Responsible Care carrier, we handle a lot of volume and we appreciate the recognition for our company’s investment in safety.”

Presented by Menlo Worldwide Logistics, the award is based on the global criteria set forth by Dow. Top safety carriers must achieve both zero serious and moderate incidents, and incur no more than one minor incident over the course of the year. Carriers who qualify must also be in good standing in the four key areas of safety reporting, on-time performance, EDI compliance and emergency response.

About The Dow Chemical Company

Dow combines the power of science and technology with the “Human Element” to passionately innovate what is essential to human progress. The Company connects chemistry and innovation with the principles of sustainability to help address many of the world’s most challenging problems such as the need for clean water, renewable energy generation and conservation, and increasing agricultural productivity. Dow’s diversified industry-leading portfolio of specialty chemical, advanced materials, agrosociences and plastics businesses delivers a broad range of technology-based products and solutions to customers in approximately 160 countries and in high growth sectors such as electronics, water, energy, coatings and agriculture. In 2010, Dow had annual sales of \$53.7 billion and employed approximately 50,000 people worldwide. The Company’s more than 5,000 products are manufactured at 188 sites in 35 countries across the globe. References to “Dow” or the “Company” mean The Dow Chemical Company and its consolidated subsidiaries unless otherwise expressly noted. More information about Dow can be found at www.dow.com.
