

## **A. Duie Pyle Honored by BP Lubricants as LTL Carrier of the Year**

*On-time delivery deciding factor for winning the award*

**WEST CHESTER, PA – June 03, 2015** - A. Duie Pyle (Pyle), the leader in asset and non-asset-based transportation and supply chain solutions in the Northeast, has been named BP Lubricant's 2014 LTL Carrier of the Year. BP is the global lubricants specialist, producing lubricants for every conceivable application on land, sea, and in the air.

Pyle was selected based on a number of criteria measuring each carrier's performance in on-time delivery and pick-up service, accident prevention, CSA rating, EDI acceptance, and shipment volume. Three carriers were finalists for the award, with on-time delivery performance differentiating Pyle from the competition.

"I want to first congratulate you again for being chosen as our LTL Carrier of the Year," said Thomas Stack, the BP Lubricants Account Manager for Schneider Logistics. "A Duie Pyle has demonstrated that they are committed to providing top notch Safety, Service and Support for BP Lubricants. We measured all of our LTL carrier's safety, pickup and delivery performance as well as feedback from Schneider Logistics Customer Service Team on each carrier's customer service communications and ease of doing business. A Duie Pyle excelled on each criteria and really separated themselves from the rest with stellar on time delivery performance. Thank you for providing such great service in 2014 and we look forward to continued success through 2015 and beyond."

A family-owned and operated business for more than 91 years, A. Duie Pyle provides a range of integrated transportation and distribution services supported by 24 transportation service centers and 9 warehouses strategically located throughout the Northeast region. Through its Customized Solutions Group, Pyle provides a variety of asset and non-asset based services including Custom Dedicated fleet operations, integrated Warehousing & Distribution services through 2.2 million square feet of public and contract warehousing space, and specialized asset and non-asset based truckload services through its Truckload Solutions.
