

A. Duie Pyle Opens New Wilkes-Barre, Pennsylvania Service Center

Facility offers expanded capacity for LTL and TL services, room to grow

WEST CHESTER, Penn. – May 13, 2015 – [A. Duie Pyle](#) (Pyle), the Northeast’s premier provider of asset and non-asset based transportation and supply chain solutions, announces the opening of its newest [transportation service center](#) in Pittston, Pennsylvania, just outside of Wilkes-Barre. The 24,600 square-foot state-of-the-art facility supports the company’s Less-Than-Truckload (LTL), Truckload (TL) and Custom Dedicated operations.

With 56 doors for expedited loading and unloading and room to add an additional 20 doors, the new Wilkes-Barre, PA facility helps increase shipping capacity and supply-chain capabilities. Strategically located close to Routes 81 and 476, the site includes an 8-door, 8,720 square foot maintenance shop, secure fencing and a 24/7 security monitoring system. The all-weather facility is fully heated and features back up power generation and on-site snow removal capabilities in order to operate in even the most extreme weather emergencies.

Pyle’s proprietary satellite tracking system and dock management technology, used in Wilkes-Barre and throughout A. Duie Pyle’s operations, offers real-time communication and tracking, further enhancing the company’s Just-In-Time delivery capabilities.

“This facility doubles the number of service center dock doors for Pyle in the Wilkes-Barre, PA area, and it also gives us room to expand further,” said Randy Swart, COO of A. Duie Pyle. “With this new service center we’re expanding our infrastructure in order to offer our customers efficient and timely transportation options now and in the future.”

About A. Duie Pyle

A. Duie Pyle is the Northeast’s premier transportation and logistics provider with extended Less-Than-Truckload (LTL) service coverage through established partnerships into the Southeast, Midwest, Canada and the Caribbean. A family-owned and operated business for more than 90 years, A. Duie Pyle provides a complete range of integrated transportation and distribution services supported by 24 transportation service centers and nine warehouses strategically located throughout the Northeast region. A. Duie Pyle’s CSG (Customized Solutions Group) provides a variety of asset and non-asset based supply chain solutions, including specialized truckload services through Pyle’s extensive transportation resources and its Brokerage division. The Warehousing & Distribution Division consists of more than 2.2 million square feet of public and contract warehousing space at nine locations in Delaware, Massachusetts, New Jersey and Pennsylvania, supported by Pyle’s commercial transportation company as well as their dedicated and quasi-dedicated fleet operations. A. Duie Pyle’s flexibility, depth of resources and diverse capabilities enable Pyle customers to source and seamlessly integrate multiple supply chain solutions with a single point of accountability.
